Re: Notification of Compliance Status
40 CFR Part 63, Subpart JJJJ
New-Indy Catawba LLC
Catawba, South Carolina 29704

Dear Sir/Madam:

Pursuant to the requirements of 40 CFR Part 63, Subpart JJJJ, National Emission Standards for Hazardous Air Pollutants (NESHAP): Paper and Other Web Coating, the New-Indy Catawba LLC (New-Indy) facility located in Catawba, South Carolina is hereby providing a Notification of Compliance Status (NOCS) to update the operational status and Subpart JJJJ applicability for the No. 1 Coater and No. 2 Coater.

The No. 1 Coater (Equipment ID 2010) and No. 2 Coater (Equipment ID 4610) were permanently retired from service on September 5, 2020 when the Kraft pulp bleaching system supplying material suitable for coating was retired from service. The No. 1 and No. 2 Coaters formerly utilized paper coatings containing less than 0.04 kg organic HAP per kg coating weight as applied. The No. 1 and No. 2 Coaters are no longer subject to the requirements of 40 CFR Part 63, Subpart JJJJ.

New-Indy no longer operates any sources meeting the definition of a web coating line found in 40 CFR 63.3310. New-Indy plans to submit a separate Title V modification request to remove these two sources from Title V operating permit TV-2440-0005.

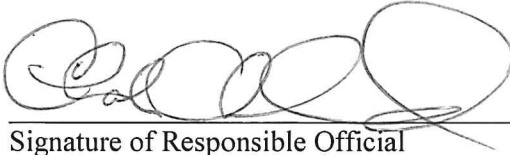

CERTIFICATION STATEMENT

I certify that based on the information and belief formed after reasonable inquiry, that the statements made and data contained in this document are true, accurate, and complete.
